### 12th

Wisdom  
International School

Percentage - 79%

### 2019-2020

### 10th

Wisdom  
International School

Percentage - 78.66 %

## SKILLS

- HTML
- CSS
- JAVA SCRIPT
- JAVA
- Problem Solving
- OOPS
- MySQL

## PROJECT

### • Hotel Management System

The Hotel Management System is a Java-based desktop application designed to manage the day-to-day operations of a hotel. It streamlines various hotel-related tasks such as guest reservation, room booking and room availability checking, ensuring smooth and efficient hotel management.

### • TO-DO LIST

The To-Do List Web App is a simple and interactive web application that allows users to manage their daily tasks efficiently. Users can add, edit, delete, and mark tasks as complete. The application stores data in the browser using Local Storage, so the list remains available even after refreshing the page.
